"Life just got a little better..."

Easily attached in minutes by home owner or pool professional, transforms your backyard into a vacation experience.

The Santoprene thermoset pad is the only point of contact and will not harm your pool liner.

Attaches with a sense of permanence but is easily removed for seasonal storage. Mounting is achieved using 3 laser cut 1/2" thick 304 stainless steel plates bolted by 6 - 5/16" stainless steel lag bolts.

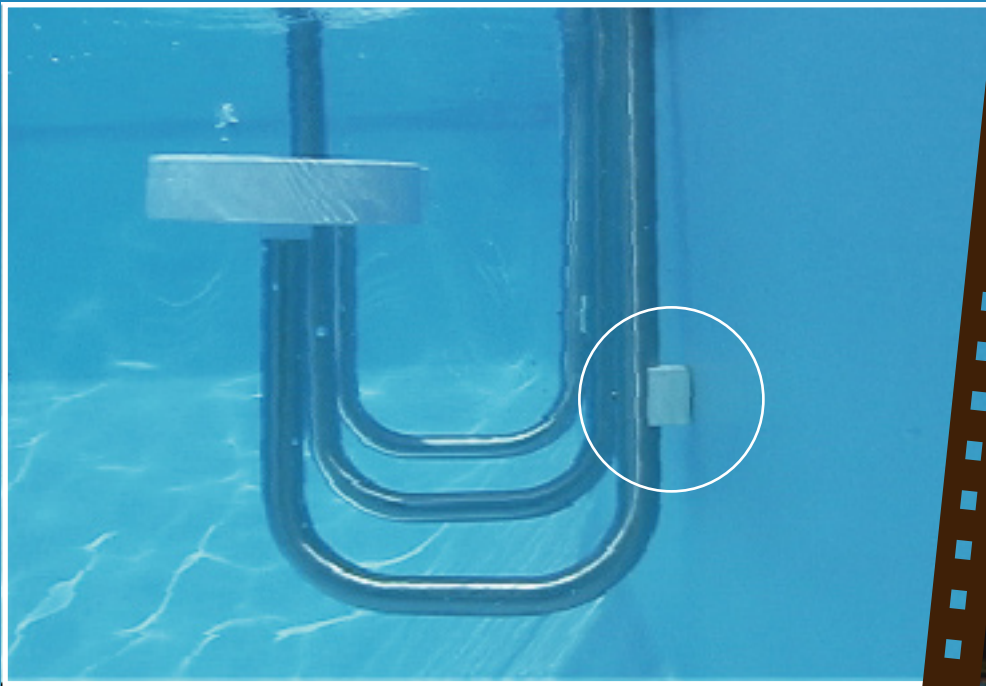

Complete with all mounting hardware. Table is fitted with 1 1/2" 1 1/4" adaptor to fit your favorite U.V. sunbrella. Enjoy having your lunch and favorite beverage while relaxing partially submerged.

Manufactured from a 15 year U.V. stabilized, chemically resistant, injected high impact white thermoplastic and 304 stainless steel to ensure a lifetime of enjoyment. Arrives in a compact carry box, mostly preassembled.

experience that vacation

take that holiday feeling home with you

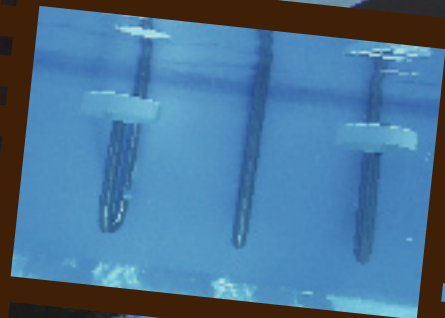

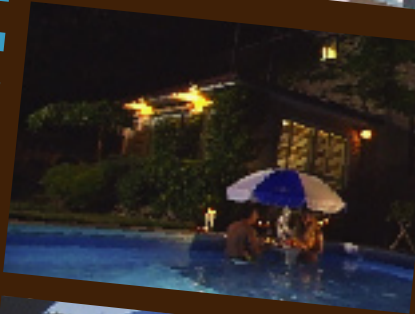

The Santoprene thermoset pad is a high-performance elastomer which will perform from - 60 deg. C to +135 deg. C. It is the only point of contact and will not harm your pool liner.

Both seats and table fold up and out of the water in the stowaway position for ease of vacuuming and entanglement avoidance of automated equipment.

feeling in your own backyard...

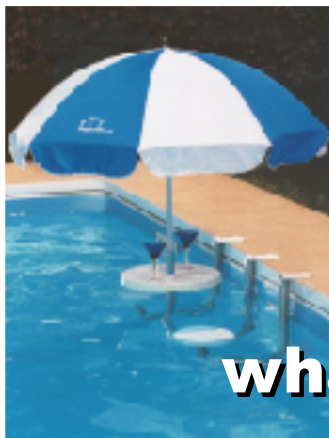

from family time to romantic evenings...

The ultimate wet bar, this innovative patented design of two submersive seats and umbrella table with four recessed drink holders will allow you to spend more time in the water enjoying the value of owning a pool.

This accessory is safe and fun for all ages, from family time to romantic evenings.

"life just got a little better..."

what an entertaining idea...
